EXPERIENCE

Yeoman Race Engines — *Technology/Assembly*

Galena, KS

Feb 2018 - PRESENT

Develop software to track work orders, customer information and billing. Build and manage the company's website. Assemble engines and develop solutions to mechanical issues. Work with customers to achieve and maintain a winning racing program. Design and machine specialty parts for race engines.

Lonely Mountain Manufacturing — *Business Owner*

Joplin, MO

Nov 2019 - Dec 2021

Owner/operator of a small CNC business. Worked with customers to problem solve and design parts to meet performance standards. Designed products to sell. Used software to model products and cutting paths. Wrote scripts to automate tasks. Maximized machine cycle time.

O'Reilly Auto Parts Corporate — *Sales Support Analyst*

Springfield, MO

March 2016 - Feb 2018

Responsible for sales tracking, system maintenance and internal profit reporting as it pertains to national, regional or program specific customers for all sales support rebates. Analysis of current and future professional support programs for profitability. Worked with the Professional Sales Support Manager to process monthly, quarterly and annual sales support programs. Developed processes to streamline and track data. Wrote scripts in VBA and python to automate tasks.
